

Fishbone CD Rack

Is your CD collection expanding? This unique extendible CD rack was awarded the prestigious European Design Plus Award in 1995. Architect Ademir Volic found his inspiration in the natural simplicity of the arch of a fishbone. This fascinating combination of lightness and strength in a single form was applied to create this functional, attractive, yet completely unobtrusive rack. Each unit holds 30 compact discs. Mount on the wall or place on a shelf, and link them together as your collection expands. A versatile and highly flexible way to store your collection. Available in black, blue, orange, clear and green.

Let your creativity blossom with... The Flex™ Vase

The Flex™ Vase, our flagship product, is a blank canvas for floral expression. Bright purple rows of lavender in Provence inspired architect Andy Skurman to create a vase designed to bring out your creative best. Its uniqueness lies in the flexible, clear connectors that link the glass vials together, encouraging you to create arrangements in a variety of shapes – heart, circle, triangle, wave, star, square, V-shape, etc. When the glass vials are filled with blooms, the vase disappears beneath a display of color and texture. Place different flowers in one, in some, or in all of the vials. Enjoy! Experiment! The possibilities are endless.

Designer: Andy Skurman United States

Available in 6-vial, 10-vial, 15-vial, and 20-vial sizes, as follows:

- 10-vial size (12"L x 1"W) in clear available in both 6" and 8" height.
 - 10-vial size in light blue, dark blue, and green available only in 8" height.
 - 6-, 15-, & 20-vial sizes available only in clear and in 6" height.
- All vials are one inch in diameter.

Item Codes:

10-vial size (12"L)		In clear only	
clear / 6"H	1010	6-vial / 6"H x 12"L	1026
clear / 8"H	1201	15-vial / 6"H x 18"L	1015
light blue / 8"H	1202	20-vial / 6"H x 24"L	1020
dark blue / 8"H	1203		
green / 8"H	1204

Body Bag Chair

When you sink into the space age – design of the Body Bean Bag Chair, it takes on your body's shape, forming a chair with a comfortable headrest. Made of soft double-layered nylon fabric, it is stronger than standard vinyl bags. One Bean Bag is a showpiece. More than one is a necessary indulgence. A contemporary take on Gatti's '60s classic beanbag. Available in silver and white. The polystyrene Bean Bag fill is sold separately.

Container Garden / Salad Utensil Set

Can you dig this? This terrific dual-function item was designed to manicure small flower-box and window gardens in Europe. But the word is now getting around that the set is perfect for use as salad utensils. Made of stainless steel, with handles fashioned in light wood. This ingenious creation of Michael Rosing makes a great unique gift for anyone.

Designer: Michael Rosing Germany

Combo Easel Frame

Frame your special photos with these combination photo frames designed by architect Andy Skurman. The Easel Frame is two frames in one: 5"x7" and 3.5"x5". And it is as beautiful as it is practical: The simple yet elegant lines of a fine art easel were Andy's inspiration for these frames, which place the photograph at just the right height and angle for easy viewing. A perfect gift for anyone on any occasion. Available in bronze or titanium.

Colgadissimo Accessory Organizer

This multifunctional accessory organizer was a winner of the 1997 Design Plus Award. A very resilient hanger composed of brushed steel S-hooks that connect together to produce a unique organizer that holds more than a dozen items. Designed to hang easily from the ceiling. An attractive way to store your scarves, ties, belts, coats, and hats. Use your talent for mixing color and texture to create a functional sculpture that looks great inside or outside the closet.

Epistola Letter Opener

No more wasted postage! This contemporary Scandinavian-style letter opener is manufactured in stainless steel for durability and sleek elegance. Place an envelope in the slot and a pencil in the hole, and the Epistola (Latin for "letter") will tell you if you need one stamp or two. This Swedish design, winner of a Design Plus award, makes a beautiful accessory for any desk.

Designer: Teo Enlund Sweden

Spirit Bottle Opener

Danish designer Steffen Schmelling created this distinctive way to bring flair to the simple action of opening a bottle. He describes his creation as "more than an opener – it is actually the spirit of the bottle." Finely crafted in stainless steel, this bottle opener is as decorative as it is functional – with an extra surprise: Place it on the counter and it forms the shadow of a smile.

Designer: Steffen Schmelling Denmark

Item code: 6050

Tube Wine Rack

Danish designer Kim Almsig, intrigued by the smooth lines of the cylindrical form, created a unique way to store bottles without adding bulk. This versatile wine rack combines brushed aluminum with a simple elegance that will complement any decor. Holds up to 12 bottles of wine and easily mounts on any wall. Available in bronze and titanium.

Designer: Kim Almsig Denmark

Multipurpose Magazine and File Organizer

Dan Perelli's passion is to create products that live up to his own expectations of function and design. When he sees how many ways his customers use this organizer, he grins and says, "I know I did something right." Use it to organize and store magazines, newspapers, files, catalogs, brochures... This sleek design, designed to mount on your wall, is a colorful addition to any home or office. Made of acrylic in translucent colors: light green, orange, clear, yellow, and blue.

Designer: Dan Perelli Denmark

DESIGN-IT™ VASE

Let your creativity blossom • Create beautiful floral arrangements in minutes
Save money with the DESIGN-IT™ Multi-Vase System

WINDOW VASE

Simplify the art of flower arranging with the DESIGN-IT™ VASE. Using our multi-vase system, you can make endless creations by combining color, shape, and texture to bring out your creative best.

The DESIGN-IT™ VASE consists of a series of clear glass vials linked by clear connectors. Its uniqueness lies in the flexibility of the connectors, which allows you to form a variety of shapes – heart, circle, triangle, wave, square, V-shape, etc. The vials can be angled, raised, and lowered to form multi-dimensional designs. Longer or smaller arrangements can easily be created by adding or detaching the connectors.

Both of our models come with extra connectors so you can work your own magic. You'll also receive suction cups to attach your vase to a window and delight in the sun streaming through your arrangement, or enjoy the added beauty of reflection by attaching your vase to a mirror.

The DESIGN-IT™ VASE gives you the exciting option of having many vases throughout your home. With our double-cluster model, create as many as four different vases! For example, divide the twelve vials and design two 2-vial vases for your bathroom mirror or kitchen window and two freestanding 4-vial vases for a table, shelf, or mantel. Combine the clusters with your extra connectors to design a one-piece vase that winds its way across a dining room table, or to create our popular heart-shape vase.

The DESIGN-IT™ VASE is perfect for urban living, giving a touch of the garden in the home and creating a sense of beauty, color, and spaciousness.

Create! Enjoy! Experiment! The possibilities are endless.

Item # 2000 Double-Cluster Vase: Two 6-vial clusters (12 vials); each cluster 6"H x 7"L (total length 14")

Item # 2005 Triple-Cluster Vase: Three 5-vial vase clusters (15 vials); two clusters 6"H x 6"L; one cluster 8"H x 6"L (total length 18")

Each DESIGN-IT™ VASE includes extra connectors plus suction cups. Dishwasher-safe.

Beautiful Floral Arrangements

- Combine vases to form a centerpiece that winds across your dining room table.
- Circle your vase around votive candles.
- Create an arrangement that circles the umbrella pole on your outdoor table.
- Before adding clear or colored water and arranging flowers, fill vials with small vegetables, fruits, nuts, or decorative stones.

WINDOW VASE

DESIGN-IT™ VASE Instructions

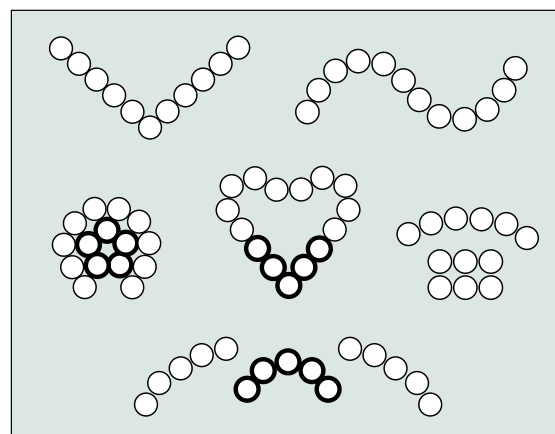

- Vials can be angled, raised, or lowered to form three-dimensional designs. Multi-levels can be created by raising vials to different heights and holding them in place with the connectors. It is easier to raise or lower the vials when the connectors are closer together.
- To create a multi-level V-shape arrangement with the DESIGN-IT™ VASE, put the first four vials (beginning at the V-point) at table surface level, to serve as a base. Then raise the remaining vials to desired heights.
- A fan effect can be created by starting with the V-shape. Fold back the two sides and angle the vials to form the desired shape.
- To attach the DESIGN-IT™ VASE to a window or mirror, wet the back of the suction cups and press the cups firmly to the glass with your fingers. Then press the center of the cups with a pencil eraser. Make sure suction cups are holding securely before hooking the suction-cup hooks underneath the top connectors of the vase.
- To securely attach your vase to a window or mirror, use: 1 suction cup for 2-vial vases; 2 cups for vases with 3 to 10 vials; 3 cups for vases with 11 to 15 vials.
- To attach or detach connectors, place the DESIGN-IT™ VASE on a flat surface and gently slide the connectors over the top or base of the vials. Create new designs by sliding the connectors along the length of the vials.
- Design smaller arrangements by removing the connectors at the point(s) where you wish to divide the vase.
- The extra connectors also can be used to create various enclosed shapes – circle, square, heart, etc. To extend floral arrangements, use the extra connectors to attach additional vials.
- To avoid breakage, lay the vase on its side when adding semiprecious or glass stones.
- Dishwasher-safe; for best results, place on top rack.

Made in USA

Patent Pending

Design Plans

Darker circles represent taller vials.

More Design Ideas

Create your own unique “glass sculptures” using combinations of:

- spices, vinegars, and oils
- green beans, pea pods, chilies, and cherry tomatoes
- cranberries, grapes, and cherries
- filberts and almonds
- fun pasta shapes
- beans, peas, and lentils
- colored water
- bath oils and bath crystals
- silk and dried flowers
- potpourri
- shells and beads
- colored sand and gravel
- semiprecious stones, glass stones, and sea glass

Fun for the kids!

A great way to introduce children to floral arranging. Any child who is old enough to work with glass safely will delight in creating their own “sculptures” – on their own or with you. (Not recommended for children under eight years old.)

Handy containers for every room in your home!

- breadsticks on the dining room table
- pens & pencils in the office or by the kitchen phone
- toothbrushes and makeup brushes in the bathroom or vanity area
- paint brushes in the family or crafts room
